

ONLINE FURNITURE SHOP

Date: 6/2/2019

Guide: Ms. Nimmy Francis

1. Project Overview?

It is an online furniture shop that allows users to check for various furniture available at the online store and purchase online. The project provides a list of furniture products displayed online in various models and designs. The user may browse through these products as per categories. If the user likes a product, he may add it to his shopping cart. User needs to register on the site before checking out so that he can login using same id password next time. User can select any payment option that he wishes to like credit card or cash on delivery. User receives a copy of the shopping receipt on his email id once the transaction is successful. In addition, sql serves as a backend to store furniture lists and inventory data. Thus, the online furniture-shopping project brings an entire furniture shop online and makes it easy for both buyer and seller to make furniture deals.

2. To what extent the system is proposed for?
